Good afternoon, all,

We are transmitting the initial draft MS4 workshop report, *Improving Stormwater Program Monitoring, Tracking, Evaluation, and Reporting*, for your review. You'll see several notes and specific prompts for feedback in the comment boxes. We're looking forward to your thoughts.

Wishing you a restful weekend!

Best,

Adriane Koenig

Hi PK and Dave,

As we discussed with you today, PK, we will transmit the initial draft report to you next week by COB on 6/29. We will look forward to addressing your comments and going through the external and editorial reviews under the new option period.

The subject matter for this report is challenging, especially because the concepts of monitoring, evaluation, tracking, and reporting are so inherently linked. I can forecast some future discussions

needed between you all and us to further discuss terminology and organization once you've had a chance to review the report. We appreciate the thought you all put in on the outline, and think we are in a good spot overall though more work will need to be done.

Wes will be your main point of contact next week as I will be out of the office.

Have a great rest of the week and weekend!

Thanks,

Bobby
